injection

3. Bladder:

- Substitution cystoplasty (Orthotopic
bladder replacement)
- Augmentation cystoplasty
- Continent cutaneous diversions

4. Urethra:

- One stage urethroplasty
- Hypospadias: proximal & distal

- 5. Others:** Incontinence (males and females), repair of VVF

Training Activities

- Practicing surgeries at the animal lab: UV reimplantation, Boari flap, classic ileal and modified Monti for ureteric replacement, substitution and augmentation cystoplasty. Simulation pyeloplasty. Simulation urethroplasty.
- Live surgery in humans:
 - UV reimplantation, Boari flap, classic ileal and modified Monti for ureteric replacement, substitution and augmentation cystoplasty. pyeloplasty and urethroplasty.
 - Endoscopic reconstructive techniques: e.g. Endopyelotomy, treatment of ureteric strictures.
- Video presentations
- State of the art lectures
- Point counter point & debates
- Panel discussion
- Case studies

Faculty/ Surgeons

- Well known Certified urologists of Mansoura UNC

**Mansoura, Egypt
29 Jan-4 Feb, 2011**

Registrations fee: 1000 US\$

For Egyptians: 2000 Egyptian Pounds

This covers:

- Transportation from and to airport.
- Scientific sessions.
- Congress Kit.
- Certificate of attendance.
- Daily Lunch and Dinner.
- Gala dinner
